

In this Issue

- 3 New Project Adoptions
- Principal Contracted
- Update on ongoing construction projects
- Spotlight on Class of 1970
- Homecoming 2020

Dear Umuahians,

Happy New Year and welcome to 2021! I am delighted to write this message and grateful to God to know that you are alive and well, bearing in mind the turbulent and unusual challenges that characterized the year 2020.

Although, the world faced immense challenges last year, the Government College Umuahia (GCU) restoration project stood firm and resilient and is well on its way to reopening in September 2021 as scheduled. In this month's issue of the newsletter, I am pleased to bring you updates and positive reports on key milestones. The GCU Restoration Project has progressed extensively with significant progress being made on the construction of: (i) the dining hall; (ii) Classroom block C; and (iii) the gatehouse.

While these three (3) projects have made significant progress, three (3) more projects are slated to join and they include: (i) library project adopted by the Class of 1970; (ii) construction of classroom block B; and (iii) adoption of the renovation of New House by an illustrious Old Boy.

The Class of 1970 has been very instrumental in progressing the GCU restoration project. In November 2020, they successfully hosted the 2020 Annual Homecoming event which marked their 50th anniversary, and they continue to work cohesively in strategizing and executing plans to reopen GCU on schedule.

All ongoing construction projects are on track for completion on or before March 2021, while construction of recently adopted facilities will commence soon. I would like to take this opportunity to encourage more project adoptions by Classes or individual alumni. Accordingly, members of the Board of Trustees of the Fisher Educational Development Trust are actively engaging with several Class groups and branches for possible adoptions. Every new adoption takes us closer to hitting the minimum number of facilities required for reopening the school in September 2021.

I would like to thank everyone of you who has contributed in one way or another to the GCU restoration project and the production of this newsletter. We are grateful to all the Old Boys who have paid their levy and call on others to make theirs as soon as possible as timely payment will ensure we meet our reopening targets.

We hope that you find this edition of the Newsletter insightful and informative especially around how projects can be adopted and you can get involved in this exciting initiative to restore GCU, our great alma mater. Up Umuahia! May we continue to shine as one!

Message from the Chairman

HE Dr. Okwesileze Nwodo
Chairman, Board of Trustees

JANUARY NEWSLETTER 2021

SPOTLIGHT!

CLASS OF 1970

'*Ahiazua!*' a popular slogan used amongst the Class of 1970 and translated to mean 'a marketplace of ideas'.

As the GCU restoration project is shifting into higher gear, the Class of 1970 is leading the way with the pioneering school library project. It has been a great show of teamwork with members of the Class bringing various strengths in strategy, planning and execution to the project. Several Old Boys from the Class of 1970 have indeed stood as passionate Umuahians, exemplifying great leadership, accountability, and immense support towards the restoration of GCU.

The Class is bound by a unique resilience partly driven by their experience as 'children of the Biafran war' which lasted from 1967 – 1970. Their inputs as a Class including fundraising for the adoption of projects in the ongoing restoration have been immense and is proving to be a source of inspiration to other class groups.

Before the war, GCU had built a reputation as the 'Eton of the East', a notable secondary school recognised for consistently achieving excellent academic results and producing a long list of illustrious and distinguished leaders. The Class of 1970 were admitted on the foundation of the high standards of excellence that GCU was reputed for. Being the first set after the war the Class was large and this may have contributed to the long list of donors compared to many other sets.

Due to the wait the war had imposed, many of the

students entering the school were full of energy and excitement and were mentally prepared to excel. Their time at GCU was also accelerated where they sat for the West African Examination Council papers in four (4) years instead of the usual five (5) and sat their O-levels examination within the same timeframe.

The early seventies was a time when Nigeria was experiencing an economic boom from the oil sector, Government Intervention funds and multiple scholarships from the Federal Government were available. Excellent education was stressed, and world class teachers were teaching at GCU. Regardless of the period, Class of 1970 found support in healthy competition both academically and in extracurricular activities producing some of the best results GCU has ever seen.

50 years later, excellence remains a core value for this Class, along with a fervour to uphold high moral standards, adaptability, resilience and a strong sense of unity and community. Since the onset of the pandemic, the Class of 1970 took great initiative and formed a steering committee, meeting frequently to take stock and strategize on their inputs towards the restoration project.

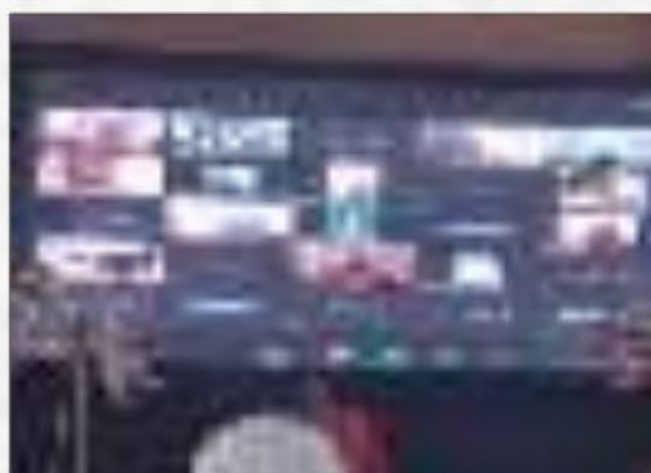

As a Class, they also meet twice a month.

In conclusion, the Class of 1970 have been phenomenal, exemplifying great leadership and commitment towards restoring our alma mater. We say thank you, well done and keep up the good work!

HOMECOMING 2020

The Class of 1970 hosted the homecoming event in November 2020 to mark their 50th anniversary. It was a great success, with a large turnout both

physically and virtually. The class also took the opportunity to mark their adoption of the library project with a ground-breaking ceremony.

PROJECT EXECUTION UPDATE

Dining Hall

The old dining hall was demolished and the re-construction has progressed significantly. It is currently at the roofing stage and the metal trusses for the roof is under installation. Please see photos below:

Dining Hall - Before Photos

Construction work on the Dining Hall has seen much progress. Currently, it is at the roofing stage and the metal trusses for the roof is under installation. You may recall that the old Dining Hall was demolished and a brand new one is rising in its place (please see photos below).

Dining Hall – After Construction (Proposed 3D Drawing)

Classroom Block C Progress Photos

Classroom Block C has made even greater progress towards completion since the last update provided. Please see updates below:

- Roofing is now complete
- Aluminium windows have been installed
- Toilets have been built both upstairs and downstairs
- The teachers lounge has been built and the balustrades have been installed. Next in focus is tiling..

Photos of Aluminium Windows Installation

Photos of Balustrades Installation

Classroom Block C – After Construction (Proposed 3D Drawing)

The Gatehouse

The gatehouse project which was adopted by GCUOBA NEC has now reached the roofing stage. The wood noggings for the roof have been installed and casting and construction of the pillars that will carry the dampalon are ongoing.

The Library

The remodeling of the school library has been adopted by the Class of 1970. The plan is to develop an ultra-modern library facility with IT infrastructure befitting of a world class institution.

The contract has been awarded to Messrs Silhouette AB+ Turnkey Limited. The premises has been evacuated and partial demolitions have already been completed. The old doors and windows have also been removed in preparation for the expansion

The Library project has a duration of 16 weeks.

Tenders went out to the pre-qualified contractors, the bids received were carefully analysed to ensure the most cost efficient and competent contractors were selected. The project team worked with the project Sponsor to negotiate and ensure that value engineering was conducted which resulted in the selection of Silhouettes AB+ Turnkey Limited emerging as the preferred contractor for the Library project.

Profile of Silhouette AB+ Turnkey Limited

Silhouettes AB+ Turnkey Limited is an Architectural and Engineering company based in Enugu with over 20 years' experience in the construction Industry both in the public and private sectors. Some of its delivered project portfolio include:

- Factory at China Town Enugu (1,400m²) for Woods 'n Glazes Ltd\
- Redesign and restoration of Vice Chancellor's Lodge, Registrar's and Bursar's official residences, University of Nigeria Nsukka.

- Mea Mater Elizabeth High School, Agbani Enugu – Fencing and 40 buildings in 5 months.
- 4-Storey Office Building (2000m2) Area 11, Abuja for Drilcon Nigeria Ltd
- Residence with 4 ancillary buildings inclusive of Civil Works at 42 Glover Road, Ikoyi Lagos for Darico Nig. Ltd

PROJECT ADOPTION UPDATE

We are delighted to announce that the number of adopted projects has recently increased by two. An illustrious Old Boy (names withheld) has committed to sponsoring the comprehensive reconstruction of New House and Classroom Block B simultaneously. The two projects will cost in excess of N120 Million and our gracious sponsor has provided the funds for these two projects upfront. The money has now been received in the FEDT accounts.

Furthermore, our dear Old Boy has committed to the provision of the following after conclusion of work on the two projects: :

- Provision of a new borehole to provide water to New House and the new dining hall.
- Provision of a brand new 22 – 33 KVA generator to service New House.

Both projects will commence construction immediately, as the contracts are being awarded following approval by the FEDT Board.

The Board has expressed its profound gratitude and indeed the gratitude of all Old Boys to the donor for his generosity. FEDT implores all Umuahians to embrace the noble example of our alumnus.

OTHER ADOPTIONS:

In total, 6 projects have now been adopted:

1. The gatehouse
2. Dining hall
3. Classroom Block C
4. The Library
5. New House
6. Classroom Block B

Negotiations are ongoing for the adoption of a sick bay.

There are still several unadopted projects. The Board is inviting the various Class groups, GCUOBA Branches as well as other Old Boy groups to come forth and adopt projects. Please kindly refer to the list of projects available in this edition for adoption.

PROJECT EXECUTION TIMELINE

The project execution timeline provides a view of the construction plan.

Dining Hall - 28 weeks.

Block C - 13 weeks

Gatehouse - 8 weeks

All the above projects are due for completion by March 2021.

UPDATE ON PRINCIPAL SEARCH

Great news! The project is moving along well and we are pleased to inform you that the search for a Principal has been successfully concluded with **Anaclayto Springfield** accepting our offer of employment and committing to be the inaugural Principal of the new GCU as it reopens in September.

Anaclayto Springfield is an experienced and pragmatic educational leader who graduated in 1988. He taught in and led academic departments in a secondary school in South Africa for 12 years before moving to teach in London in 2001. He later returned to South Africa and worked in several roles. He became an Educational Consultant in 2011 and has been into senior school leadership since 2014.

Mr. Springfield found his home at his last school in Abuja and had to leave due to family reasons. He very much enjoyed being in Nigeria and feels he understands our culture and our people. He is very

keen to return; and sees GCU as the sort of new challenge where he could make a real difference. Above all, he wants to be able to walk away at the

end of his tenure having laid a solid foundation by creating a fantastic school with excellent academic and leadership results; responsible young people and staff who would have genuinely enjoyed being part of the new GCU and creating something truly special! Mr. Springfield is open and ready for the challenge.

It is important that the new Principal is a visionary who understands the GCU ethos and can work with Old Boys to rebuild GCU into a world class school.

Anaclayto Springfield comes across as such a candidate who can be entrusted to uphold the vision of the school.

He believes that teachers should ensure that students are taken on a journey of discovery, where the teacher is more of a facilitator than a deliverer of knowledge; helping students create rather than just absorb content.

He will arrive in Lagos at the end of February to commence his new role as Principal of GCU.

FUNDRAISING UPDATE

The Board adopted a 4-part strategy to raise the funds required to reopen the School in September 2021. Progress has been made on all the strategies since they were adopted and communicated.

General Levy mandate from all Old Boys: N10.1 million has so far been received from levy payments by Old Boys. We thank all Old Boys who have paid the levy. We enjoin all Umuahians yet to donate to please make payments to the designated levy account. Kindly include your name and class as a reference when making payment to allow for reconciliation. The account details are:

Project Implementation EXCO Committee

As the GCU Restoration program is at a critical phase. There is a need to proactively strategize on how to drive the program to completion. The goal of this committee is to support FEDT Board in overseeing the plans for the reopening of the school by September 2021. The members of the EXCO are:

- Reginald Ihejiahi
- Okey Enelamah
- Emeka Ifezulike
- Onyema Nkele
- Chijioke Ebizie
- Okey Eneli
- Rumundaka Wonodi

TOWNHALL MEETING HELD WITH CLASS REPRESENTATIVES AND BRANCH CHAIRMEN

Communication with Old Boys has been a major priority for the Board to ensure the success of the restoration project. The last Townhall meeting of the year was held on the 25th of September 2020 to answer questions regarding the Restoration Project as well as provide an avenue for cross fertilization of ideas with Class and other Representatives.

Another Townhall meeting is proposed for the 20th of February 2021 to further discuss fundraising, project adoption and other issues.

DATABASE

The Secretariat continues to develop a Database of all Old Boys to ensure every Old Boy receives communication regarding the project. We strongly urge you to please send in your information to the Secretariat in the following order through any of the listed communication channels.

- Full Name
- Year at Umuahia
- House at Umuahia
- Phone
- Email
- Branch
- Occupation
- Place of Residence

Please send these to the Secretariat through any of the listed communication channels at the bottom corner of the last page of this Newsletter. All Old Boy's should please endeavour to send in their details to ensure the Umuahian Database is robust and up to date.

LIST OF PROJECTS AVAILABLE FOR ADOPTION

TIER 1 ADOPTION OPTIONS:

1. Dormitory
2. Classroom Block A
3. Principal's House
4. Teachers' Quarters
5. School Clinic *
6. Laboratory
7. Principal's House
8. Staff Quarters
 - a. 18 Two-bedroom flats
 - b. 5 Three-bedroom flats
9. **Furnishing for Classroom Block C (25 Students per classroom)**
 - a. (Includes desk and chairs for students, whiteboards, notice boards, projector, storage cupboards, desk and chairs for teachers, conference room facilities for teacher's room)
10. **Furnishing for Dormitory (180 Students)**
 - a. (Includes bunk beds, mattresses, pillows and wardrobes for students, furniture for common room and the housemasters flat)
11. **Furnishing for Library**
 - a. (Includes tables and chairs for students, furniture for offices in Library and computers for the students)
12. **Furnishing for Dining Hall**
 - a. (Includes tables and chairs for students in Dining hall)

TIER 2 ADOPTION PACKAGES

These packages include the furniture, mechanical items required in each of the buildings and the energy centre.

Close Couple WC

Wash Hand Basin

Bowl Urinals

Kitchen Sink

Air Conditioners

Extractor fan

Bunk Beds

Single bed mattress
